

Pursuing Career in Machine Learning

Mihir Shekhar

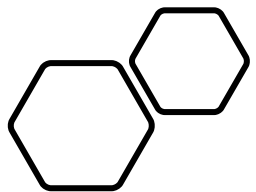

Intended Audience

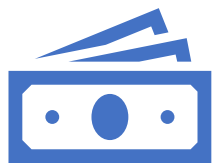

Information Technology
Professional

Engineering Students

Why career in ML?

Better Pay

Research

Broaden scope of
jobs

Solve a unique
problem

Allied Areas

Vision

NLP

Video

Speech

Robotics

Develop Your CV

- Strong projects
- Good programming background
- Knowledge of Python and C++
- Publications
- Tools and Technologies

Getting your CV selected

What HR look for?

Experience in
Projects

Exposure to ML

Branding

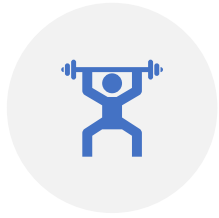

Stars

Tools and
Technologies

What I look for in candidates?

Fresher : Must Have

STRONG ABILITY
TO CODE

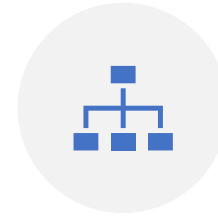

GREAT PROBLEM-
SOLVING SKILLS

ML THEORY

EXPOSURE TO
DEEP LEARNING

2-STRONG
PROJECTS

3-4 BASIC
PROJECTS

DATA : WHAT,
WHERE AND HOW

What I look for in candidates?

Fresher: Good to Have

Internship experience

Research Experience

Research papers

What I look for in candidates?

Experienced : Must have

ML

: WHEN, WHAT
AND WHERE

ADVANCE
CONCEPTS IN ML

PROJECTS
RESEARCH

PIPELINE
OPTIMIZATION

KNOWLEDGE OF
CLOUD

What I look for in candidates?

Experienced : Good to have

Coding

Higher Studies

- MS

Pros : Branding, Exposure, Research Experience

Cons: Costly, two to three years

US is great

Germany is cheap and best option

India : if you get scholarship and its free

- Ph. d: Unless you want to go in academia, don't go for it

- Go for internships in Indian Universities

How to get referrals? Networking

College Alumni Network

Linkedin

Company Career website

Code Jam

Hackathons and Meetups

Internships

Apply in 4th/3rd year

Inria

Colleges: Mail professors
